

RETRO METRO GREEN

2017 COLOR OF THE YEAR

Fine Paints of Europe has created Retro Metro Green for our 2017 color of the year. Inspired by the exotic wrought iron Art Nouveau signs for the Paris subway designed by Hector Guimard, this life-affirming green suits city spaces while retaining a connection to the natural world. In your home, it will add a soothing yet stimulating ambiance to any room and its urbane-earthly balance will easily harmonize with other colors. Only Fine Paints of Europe's ultra-refined pigments can produce lasting color this complex and luxurious.

So, get your walls on course in 2017 with the new life-force of Retro Metro Green.
