

Introducing the  
**2022 Color of the Year**

## Pink on the Brink

It used to be called shocking pink, but in today's full-tilt world this stimulating shade helps us maintain our balance. Fine Paints of Europe 2022 Color of the Year, Pink on the Brink, pushes the limits and puts a glam spin on this comfort classic. Pink is an inherently soothing shade, so you can go vibrant and vivacious while still fostering a cozy vibe.

Lacquer your front door for maximum curb appeal, or paint an accent wall or ceiling for some added spice. This fun-loving fuchsia will transform any room or nook into a favorite space for brainstorming. It really rocks out when paired with other hyper-hues such as cobalt, green, gold, purple, or black and mellows out with white, cream, tan, or gray.

Fine Paints' Certified Painter Jay Turner brush-painted these extraordinary walls, sending this room into the stratosphere. Jay's flawless application of this glam-cozy posy showcases the audacious shine and powerful pigmentation of our Hollandlac Brilliant 98.

So, think outside the box and inside your comfort zone in 2022 with Pink on the Brink. Colorfully yours,

Emmett Fiore  
Color Strategist
