

# Fine Paints of Europe®

2026

Color of the Year

## Drama Queen Black

She's dramatic. She's elegant. She never goes out of style.

Meet Fine Paints of Europe's 2026 Color of the Year: Drama Queen Black.

If this black beauty seems too dark or extreme for you, consider her power. Accent walls, ceilings, trim elements, floors or doors painted this swarthy shade resonates when she owns the room.

Invite The Queen to work her magic and expand your spaces.

Rooms glossed-out with this ebullient ebony will acquire a sense of depth and design elements such as kitchen cabinets, bookcases, shutters & tables will stand proud.

Drama Queen Black shares the spotlight perfectly with all neutral colors and strikes a nice balance with vivid hues such as emerald, teal, violet, red and gold.

Dramatize your front door for some added curb appeal!!

All colors pale by comparison to The Queen, just as all paints are not created equal. Our feature room, drenched in dark glamour, sparkles like a jewel box filled with wonder. This irresistible charm is a direct result of the hulking pigmentation and jaw-dropping sheen of our Hollandlac Brilliant 98, world renowned for electrifying spaces and blowing minds.

So, if your décor seems tired and bored, add a sense of wonder back with Drama Queen Black!

Colorfully yours,  
Emmett
